Staff must take all reasonable precautions to ensure that PPE is stored and maintained properly.

18. Working Alone

It is recognised that, from time to time, it may be necessary for academy staff to work in situations or locations which are remote from other members of staff. This will include staff working in the evenings, weekends or during the holiday in the academy on their own.

In such circumstances the academy will assess the risk to these individuals and will introduce suitable controls to ensure that all risks are minimised. A copy of the procedures introduced to control these risks will be kept in reception.

Any staff wishing to work outside normal academy hours must have prior agreement/permission from the Head of School.

School Security

The Cormac Site Supervisor, is the appointed person who is responsible for the security of the site at the end of the day by ensuring that doors, windows, skylight etc. are secured.

The Estates Team is responsible for carrying out checks of the premises during holiday periods.

School Staff Responding to Call-Outs

Staff nominated as out-of-hours key holders are sometimes required to attend site following the activation of the alarm. When they are called out they will not know what situation they will find and consequently systems need to be established which reduce the potential for them to be harmed.

It is considered that it is foreseeable that when attending a call out there is a potential for injury due to assault (which is rare) or as the consequence of an accident.

Kestrel Guards and Hannah Stevens (Headteacher) are the school's nominated representatives who will respond in an out-of-hours call out.

The school will assess the risks to these individuals and introduce suitable control measures to ensure that all risks are minimised.

Call Out Arrangements

The academy will introduce call out arrangements that will reduce the possibility of injury to staff and which ensure that if an incident occurs support will be provided.

Security Firm Personnel Attendance

Having a contract with a security firm who will respond to alarm activations without recourse to a school key holder or who will arrange for someone to meet and staff with the key holder whilst they check the site.

KESTREL GUARDS

Lone Person Attends

Intruder Alarm will never result in a lone attendee response.

A Fire Alarm Callout could result in a lone attendee response, at this point the lone attendee would operate within the lone working policy.

19. Violence

Zero Tolerance

Violence is not tolerated in this academy. Action and the appropriate sanctions will be taken against the perpetrator of any violence towards staff, pupils or visitors to this academy.

Violence towards Staff

Violence towards staff from other members of staff, visitors or members of the public will be reported to the police.

Violence towards staff from pupils will be dealt with using the school's internal disciplinary procedures (which may include police involvement where appropriate).

Violence towards Visitors

Violence towards visitors will be reported to the police.

Violence towards Pupils

Violence between students will normally be dealt with using the school's internal disciplinary procedures (which may include police involvement where appropriate).

Violence towards students from staff, visitors or members of the public will be reported to the police.

Responsible Person

Gwyn Gowing, HSO, is responsible for ensuring that all:-

- Staff are aware of the policy and procedures for dealing with violent incidents
- Staff have received instruction in procedures/techniques for avoiding violence at work
- Staff are aware of the procedures for reporting violent incidents
- Incidents of physical and verbal abuse are recorded using the Online Accident Reporting System

Team Teach

Team Teach is a training package for staff utilising de-escalation and positive handling strategies to support a child when they are in a crisis situation.

This academy has the relevant number of staff members trained in Team Teach techniques

20. Working at Height

When working at height the correct equipment should be used at all times to mitigate the potential risk to health and safety. Each classroom has a foot stool that can be used. Staff should not climb on chairs or furniture.

No working at height should be undertaken when working alone.

Equipment should meet the Class 1 or 2 standard:

Max Safe Working Load: 175 Kg (27.5 st) for Class 1 and 150 Kg for Class 2. For daily use where onerous conditions of use, carriage & storage occur.

Any un-safe equipment or concerns about equipment should be reported to the appropriate Site Manager as soon as possible, and where equipment is damaged taken out of use immediately.

Ladders should be stored in a secure manner such as to prevent unauthorised use.

Staff should use a dynamic risk assessment of the work to be undertaken at height. If staff are unsure of what is the right equipment to use advice should be sought from the HSO.

Mobile towers are only to be used by staff who have completed the working at height training course and any excessive high-level work must only be undertaken by fully trained staff.

Appendix 1 – Fire Evacuation Procedure

St Francis School - Fire Evacuation Plan

Version 1.0

Committee Author: SLT

Produced Date: June 2020

The overall aim is to save life, therefore evacuation is of paramount importance. Evacuation should be completed as quickly and as safely as possible. 2 meters social distancing should be observed if safe to do so.

Staff are not expected to fight fire nor should they go back into the building.

As fire doors are propped open to improve ventilation and save having to touch doors, the Headteacher and Office team member will close all corridor, office and toilet block doors when the alarm sounds. Teachers are responsible for closing their main classroom door before exiting the building.

Anyone discovering fire or smoke should raise the alarm by breaking the glass at the nearest alarm point.

Fire drills are carried out at least once a term and recorded in the Fire Certificate Log Book which is kept in the school office.

WARNING

Bells ringing continuously.

PROCEDURE

On hearing the alarm:

- Direct children to walk quietly to the nearest exit, do a headcount to make sure all children are accounted for and then walk quietly in single file to the assembly points on the playgrounds. Lining up observing two meter social distancing.
- On leaving the building immediately assess the route ahead for any obvious signs of danger e.g smoke, smell or sound of burning. Use this information to decide on the most suitable route for getting to the assembly points.
- Ensure that the classroom is empty before leaving. Close the main classroom doors and windows.
- Everyone on site, children and adults, must leave by the nearest exit.
- Staff based near communal areas must check they are evacuated e.g ensure that no children are left in cloakroom and toilet areas.
- Senior teacher or one of the Admin team will call the fire brigade (although all telephones will immediately connect to 999)
- Once gathered at the assembly point the teachers will roll call all classes to ensure all pupils present (using laminated yellow registers – teachers will have a laminated list of all children within their bubble. They will know who is in school and will hold it above their head when their bubble is accounted for)
- The admin staff will check signing in book for visitors
- All visitors must report to admin staff at the front of the building
- The admin staff will check the parents' signing out of pupils book and liaise with relevant teachers
- The Head teacher/Head of School or designated member of staff (Fire Warden) will check that all adults and children are accounted for. On the bottom big playground this will be the teacher in charge of Class N, if s/he is absent it will be Class M, then Class L and so on down the corridor. On the top playground this will be the teacher in charge of Class E, if s/he is absent it will be Class F and so on down the corridor.
- Classes should stand still and quiet until asked to re-enter the building.

NB: As the attendance register is completed online, it is important that a laminated copy is also completed and available to use for roll call. Therefore it must be kept in an accessible place (immediately obvious to all, including supply teachers) e.g blu-tacked to the wall above the teacher's desk. Please ensure this copy of the register is updated if a child arrives some time later in the day.

At Breaktime

When alarm bell sounds

Children on Reception playground

- All children must remain on the playground until directed otherwise by staff

- Teachers direct children to assembly point, deciding which way to go after assessing safe route (using all available information e.g smell, sight, sound)

Children on top and bottom playgrounds

- All children already on particular playgrounds must remain there
- Staff on playground duty to blow whistle and assemble children in classes
- Teachers evacuate and join their class

Indoors

- Children remain on that playground
- Supervising adult will blow the whistle and assemble children in classes

On the Reception playground

ASSEMBLY POINTS

It is important to note that routes to assembly point must be clear and therefore those outlined below are recommended but exact routes will need to be decided upon at the time

SCHOOL AREA	ASSEMBLY POINT
Hall and kitchen	Front of the building – report to Office staff
Smiling Faces Preschool	Mongleath Road end of pathway
Classes E, F and G	Either Top playground or bottom playground. To make the decision which – go to the Top playground if you have not received any information to stop you from doing so e.g been told that there is a fire in the kitchen or signs of fire are visible when exiting the building
Class H, A, B, Learning Support Room, Library, C, D, ICT suite I, J, K, L, M, N	Bottom playground
Old staff room upstairs	Front of the building – report to Office staff
Admin and Head teacher's office	Front of the building – report to Office staff

Evacuation from School Site

Should it be necessary for the whole school to evacuate from the school site, classes will be walked to St Marys Catholic school, Mongleath Road (approx. distance 400 metres). Similarly we are an external evacuation assembly point for St Marys. We will walk in our designated groups, observing 2 meters distancing wherever possible.

General Points

Teachers should be mindful of any child that may have been taken off site for illness or an appointment.

If any visitors are present the adult they are working with should ensure that they know what to do.

Visiting Staff

All regular visiting staff e.g Kernow Learning staff, must be made aware of this policy.

Review

This Policy must be reviewed after every time the fire bell is sounded. A record of this is kept in the school's "Fire" folder.
