

# Kernow Learning

## Trevisker Primary School SEND Information Report

- ❖ Trevisker School is situated at St. Eval and is approximately 2.5 kilometres from St. Eval Church which is a landmark for miles around. The school has historical links with both the local community and RAF St. Mawgan.
- ❖ At Trevisker we undertake to create a warm, safe and caring environment where all our pupils can develop a sense of enquiry and creativity.
- ❖ We are committed to supporting all children to enable them to achieve academically and thrive socially and emotionally at school. Throughout their experience at our school, we take many steps to support them whilst encouraging independence and autonomy. Quality teaching enables most children to succeed however there are times when individual children may need additional or different support.
- ❖ Some children find certain aspects of their learning difficult. Our Special Educational Needs policy is designed to support these children enabling them to overcome these hurdles and achieve the highest standards. We welcome all children to our school and will make every effort to adapt teaching and learning to support a child's educational development. We have a skilled and dedicated staff who treat everyone as an individual and celebrate all achievements.
- ❖ All classes are fully inclusive. Support for children is determined by individual need and circumstances. We have high expectations for all our children and we aim to fully extend their academic and social development. Throughout their time at Trevisker children may receive varying levels of support according to their changing needs and circumstances. The information below is a guide to the 'typical' levels of provision. The levels of support and provision will vary across time for individual children in response to their individual needs. Current needs being met include:
  - ❖ Dyslexia
  - ❖ Autistic Spectrum Disorder
  - ❖ Attention Deficit Hyperactivity Disorder
  - ❖ Effects of medical conditions
  - ❖ Sensory Processing Difficulties
  - ❖ Social and emotional difficulties
- ❖ All staff and governors are involved in monitoring and evaluating the provision provided and are collectively responsible for the successful implementation of the offer to ensure success and achievement for all pupils.

- Staff and governors are given relevant and appropriate training, according to their needs, the needs of the children and the needs of the school.

❖ **Name of the Special Educational Needs & Disability Coordinator: Charlotte Jane**

❖ **Date: September 2023**

❖ **SEND Governor: Natalie Green**

<b>Behaviour support service</b>	Support on strategies for children with behavioural difficulties	Referral through school

### Answers to Frequently asked Questions

1 How does your school know if children/young people need extra help?

If you are concerned about your child's attainment, progress or any other difficulties they may be experiencing please talk to their class teacher or the SENDCo – Charlotte Jane. Children are assessed at regular intervals during the school year – if a class teacher has concerns about the attainment/ progress of a child (academically, emotionally or socially) then they will speak to the SENDCo and action will be decided from there. You and your child will be involved in this process.

2. What should I do if I think my child may have special educational needs?

If you are concerned about your child's attainment, progress or any other difficulties they may be experiencing please talk to their class teacher or the SENDCo – Charlotte Jane.

3. Who is responsible for the progress and success of my child in school?

Your child's class teacher is responsible for their progress in school, with support from the SENDCo if necessary. Parents and carers also have their part to play by making sure they listen to their child read, get them to school every day on time and that they support their child with their learning targets at home. It is also important that parents and carers read regularly with their child and communicate with the school if there are changes in circumstance that may affect your child.

4. How will the curriculum be matched to my child's needs?

The curriculum will be differentiated to meet the needs of all learners. This may be by children having different work to do, having a different expected outcome, extra resources or extra adult help in class.

5. How will school staff support my child?

If your child has special needs this will depend on the needs of your child. It may be though different work being planned for them, extra adult support in class, extra support out of class and setting up systems in class to allow children to work independently.

6. How will I know how my child is doing and how will you help me to support my child's learning?

Parents/Carers and pupils are invited to meet to discuss ILPs (Individual Learning Plans) three times per academic year. In addition parents/carers will receive a school report in the Summer Term and there are parents' evenings and opportunities to meet the teachers during the year. You are also welcome to make an appointment to see your child's class teacher or the SENDCo at any time. They will be able to discuss with you how your child is doing and how you can support them.

7. What support will there be for my child's overall wellbeing?

All staff in school work hard to ensure that your child is safe and happy in school. For children who are experiencing emotional difficulties it may be that they can work with our support staff. Parent Support Advisors are available to support families experiencing all sorts of difficulties. The school nurse is also available to work with you and your child on emotional and health difficulties that your child may be experiencing. You can contact her yourself or speak to Charlotte Jane about your concerns and she can make a referral for you if necessary.

8. How do I know that my child is safe in school?

Your child's safety is our first priority. We have an anti-bullying policy in place and any incidents of bullying are dealt with seriously. We have a number of members of staff who are trained in first aid and a team dedicated to support our staff in an awareness of specific conditions and illnesses. Safeguarding your child is everyone's responsibility and staff are all trained to do this in an effective and rigorous way.

9. How will my child be included in activities outside the classroom including school trips?

As a fully inclusive school, all children participate in whole school, curriculum and off site activities. The extent to which each child participates and the levels of support received will vary between children and across time, but we differentiate the activities and expectations to enable all children to take part. The exception to this would be if a child's behaviour is a risk to themselves or others.

10. How are the school's resources allocated and matched to children's special educational needs?

Each child receives support matched to their own level of Special Educational Need. This will vary across each day and throughout their time in our school, as the level of support is directly related to their needs and circumstances. Support is allocated in relation to the child's individual needs and on the advice of external professionals. Support is monitored closely and adapted as and when necessary.

11. What should you do if you feel that the Local Offer is not being delivered or is not meeting your child's needs?

Parents who believe their child's needs are not being met within school are asked to meet with the SENDCo to talk through their concerns in the first instance. Where concerns persist parents are asked to make an appointment with the Head teacher. The Chair of Governors may be contacted if a parent feels this is necessary.

11. How is our local offer reviewed?

Our local offer will be reviewed by Governors on an annual basis. The governors and Head teacher will also review progress through regular monitoring, reports to governors by the SENDCo and other Senior Leaders as well as through the performance management of key staff.

**Any further questions:** If you have any questions about our local offer, please don't hesitate to contact the school on 01841540363

Cornwall's Local Offer can be found by following this link: [www.supportincornwall.org.uk/localoffer](http://www.supportincornwall.org.uk/localoffer)

If you want to complain about the school's SEN support, you should do it while your child is still registered at the school via the school's complaints procedure. This includes complaints that the school has not provided the support required by your child's SEN education, health and care (EHC) plan. There is a different process if you disagree with a decision your local authority has made about an EHC plan. You should raise issues directly with the local authority or via the SEND Tribunal.
